

Annual Activity Survey for City Academy Norwich

Welcome to the 2024 Children's Services Annual Activity Survey!

This survey provides information about the first destinations of young people who have reached the statutory school leaving age in the summer of 2024. This year, we've seen an increase of **546** young people surveyed this year compared to last year making this years cohort a total of **9,821**.

A big thank you goes out to the dedicated staff at schools, colleges, and sixth forms, as well as Norfolk County Council's Advisers, Keeping in Touch Team, and the Post 16 Education, Employment and Training Team for their hard work and efforts to make this survey possible. It's important to remember that all young people are expected to continue their education or training until at least 18 years old. Therefore, the figures regarding those "in learning" are a key focus of this report.

We are pleased to report that this year has seen an increase in the number of young people entering **full-time education and in learning**. However, we are concerned about a decline in the overall number of apprenticeships. Despite the rise in full-time education and in learning, the larger cohort this year has led to an increase in the percentage of NEET (Not in Education, Employment, or Training) young people, which has risen by **1.35%** compared to last year's figure. This represents an increase of **132 NEET** young people from last year.

Karin Porter
Post 16 Education, Employment and Training Service Manager
